## Less admin, more teaching

Focus on what you do best: teaching. Everything is structured and easy to manage, so you spend less time organizing and more time guiding your students.

Valuable insights

Track student progress and identify learning gaps.

Simple to use

No installations, no complicated setup.

No experience needed

Suits both beginners and experienced teachers.

Classes

NAME	NAME
NAME	HTML S2025
Computer Science Class	Webdev-2025
Frontend class : Week 2-6	HTML Introduction
HTML Class	CSS Introduction
CSS Class	Computer Science 25
CSS Lectures	Class test

Interactive Quiz App	Code project	Create a quiz where users can select answers and use JavaScript for scoring.
Personal Portfolio Website	Code project	Students build a simple portfolio using HTML, CSS, and optional JavaScript.
Student Grade Calculator	Code project	Develop a program that calculates a student's average and grade.
Basic HTML Structure	Code challenge	Test students on creating a basic HTML document with a title and a heading.
CSS Selectors	Code challenge	Challenge students to apply different styles using various selectors.
CSS Selectors	Code challenge	Challenge students to apply different styles using various selectors.

All in one platform

We know you already manage multiple platforms, LMS tools, communication apps, tracking systems, homework platforms, and digital textbooks.

W3Schools Academy makes it easier to teach coding by keeping everything in one place. No extra software, no complicated setup.

Product demo

Access to all certification exams

Students get access to all W3Schools certification exams. Each exam is automatically graded, giving you a clear overview of your students' progress without extra work.

Certificates are a great way for students to prove their skills and add something valuable to their portfolio.

CERTIFICATE OF COMPLETION

This certifies that

Selma Martins

has passed the W3schools C# Certification exam and is hereby declared a

Certified HTML Developer

The candidate has passed the exam at the Professional level

Verify completion at:  
https://verify.w3schools.com/1MNNANGD43

Issued February 12, 2024

Thomas Thorsell - Arntsen  
for W3schools.com

Support your students at every step

From the first lesson to the final exam, students progress through structured courses, hands-on challenges, and certification exams, building real skills and staying focused.

Tutorials that break down coding concepts into manageable parts, making them easy to understand.

### Progress is always visible

Students can see what they've completed and what's next, making it easier to stay on track.

[Read more](#)

### Learning by doing

Coding challenges and projects help them explore, experiment, and apply what they learn.

[Read more](#)

### Certifications that matter

When students pass the final exam, they earn a certificate that proves their skills.

## Online IDE for your classroom

With W3Schools Spaces, students can build and test projects directly in the browser, no setup required. It's an easy way for students to apply their skills, experiment with code, and share their work with others.

### 30+ coding languages

Students can build projects using HTML, CSS, JavaScript, Python, and more.

### Quick start with templates

Students can choose from over 75 templates or customize their own.

### Create projects their way

Students can build websites, web apps, or fullstack solutions.

## The tools that give you control

### Teacher dashboard

Track student progress, manage assignments, and get real-time insights.

[Read more ↗](#)

### Study plans

Save time with ready-made study plans or customize them to fit your classroom.

[Read more ↗](#)

### Challenges & projects

Practice with challenges and projects, working alone or in teams. Use the library or create your own.

[Read more ↗](#)

### Learning content

Ready-made courses and tutorials, to keep learning structured and up to date.

[Read more ↗](#)

### Online IDE

For building websites and applications. Code, test, and deploy. Easy to use, no setup required.

[Read more ↗](#)

### Exams & certifications

Assess student skills with exams and certifications, giving them proof of their achievements.

[Read more ↗](#)

Keeping up with new technologies isn't always easy. New frameworks and languages appear all the time, and it can feel overwhelming on top of your work in the classroom.

We're here to help you stay confident and up to date with best practices, so you can explore coding concepts at your own pace before introducing them to your students.

## Student data stays private and secure

W3Schools Academy is designed for education, not data collection.  
Schools and organizations can trust that student information is protected.

### No targeted ads or data sharing

Student data is not used for marketing or sold to third parties.

### Minimal data collection

We only collect what's necessary for learning, nothing more.

### Built to meet privacy standards

Complies with GDPR, FERPA, COPPA, and other regulations to keep student data safe.

### Control over student data

Teachers and students own their content and can request access or deletion at any time.

### Secure by design

Includes encryption, secure access controls, and regular security updates.

### Transparent Practices

We are transparent about how we use data and provide tools for managing privacy.

## What educators say

### Nesta Paul Katende

Founder & CEO in Otic Foundation

### Brian Moran

Co-Founder in Boolean Girl

### Gavin Taylor

Head of Adult Education in LearnTech

learning accessible to everyone.

in our teaching so it made sense to also use the development environment.

recommend this classroom tool with W3Schools courses.

## Supporting teachers for 25+ years

For over 25 years, W3Schools has been a trusted resource for coding education. While other platforms cover many subjects, we focus only on programming.

Our courses, challenges, and exams are designed to help students build real coding skills, making it easier for teachers to create structured and engaging lessons.
